

Trans Women HIV Research Initiative

TWIRI CONFERENCE

Conference Vision: To bring together service providers, community members, and/or researchers to discuss the social and health care needs, priorities and contexts of trans women and gender diverse people with and without HIV. Together, we will create a policy agenda and work together to improve health and social care access for trans women and gender diverse people.

*We're here for Health and Social Care Access
for Trans Women and Gender Diverse People*

Wednesday, November 22, 2023
The 519, 519 Church St., Toronto
